

## REMARKS

### Priority

The Examiner indicates that the application may be entitled to the benefit of the filing date of a prior application filed in a foreign country, and that “accordingly, the examiner of record respectfully requests the submittal of the translation of the foreign document.”

Applicants satisfied the requirements of 35 USC § 119 and request a clarification why a translation is necessary. 35 USC § 119(b)(3) states that the “Director may require a certified copy of the original foreign application, specification, and drawings upon which it is based, a translation if not in the English language, and such other information as the Director considers necessary.” (Emphasis added.)

In any event, applicants point out that the US provisional application US 60/446,563 relied on for domestic priority was initially filed in German, which German text was the same as the DE priority text, and in which case a verified translation was later filed. Thus, an English translation of a text identical to the DE priority document is available in essence should the examiner wish to review it for any reason.

### Specification

Applicants thank the Examiner for pointing to the suggested guidelines illustrating the preferred layout of the specification. However, since these guidelines are merely suggested and not required, applicants decline to amend the specification at this time.

### The Rejections Under 35 USC § 102

The rejections are moot in view of the amendments of the independent claims.

Support for the amendments can be found, for example, on page 18, last paragraph to page 19, 4<sup>th</sup> full paragraph (equation [6b]), page 21, 2<sup>nd</sup> full paragraph, page 22, 3<sup>rd</sup> full paragraph (variation 2).
